Quick Tip #1 - Sticking Closet Door

We've all experienced those sliding closet doors that stick and rub. Did you know there is a simple fix?

All sliding closet doors hang from a horizontal metal rail. Rollers fastened to the top of the door fit into a J-shaped track above. By adjusting the roller bracket, you can raise or lower the door.

The key is to understand how your particular door's bracket needs to be adjusted. As the illustration shows, you'll be looking for one or more screws within a slot. Loosen the screw(s), and then tip, turn or slide the bracket to raise or lower the roller.

Often you will find that loose screws in the bracket have allowed the door to drop or tip. Inspect the clearance between the door and the bottom guide, and make sure the door's

edge is parallel to the vertical door frame. Once you've found the proper roller setting and clearance, the door will operate properly. (Don't forget to tighten the screws once you've made the adjustment.)

WE PROVIDE THE CONTENT

EMAIL & INTERNET CONTENT

Do you want to keep in touch with your customers but lack the time to write material? Let Quick Tips do the talking for you. With Quick Tips, you can market your services while providing useful information to your customers.

Each Quick Tip includes professionally written text and a color illustration – ready to be inserted into your layout.

CUSTOMIZE FOR YOUR BUSINESS

Quick Tips are provided as a text file, with an accompanying JPEG image. Add the content to your email newsletter campaign, website, blog, social media, newsletter, or even a printed handout.

EASY EMAIL MARKETING: OPTION 1

How do I get started with email marketing?

Let Quick Tips do the talking for you. Start an email newsletter campaign with a vendor like Constant Contact® or MailChimp®. After the first issue, simply reuse your template, changing only the Quick Tips content. Your vendor distributes the emails and tracks usage.

EVEN EASIER EMAIL MARKETING: OPTION 2

How can I get someone else to do all the work for my email marketing campaign? Use Inspection Support Network.

Inspection Support Network will set up and deliver Quick Tips to your customers and agents. Inspection Support Network has been supporting home inspectors for over a decade and can help streamline and grow your business. Integrate every part of your business through one amazing software package. ISN offers free setup and free training. Its service is free for the first 60 days, and you can cancel anytime during that period. Contact ISN at 800-700-8112 or inspectionssupport.net.
